SOCIETY OF SOUND HEARING INTERNATIONAL (SSHI)

The Society for Sound Hearing International (SSHI) was initially a regional organization including South East Asian countries that has expanded globally. The Head office is located in Hong Kong, while the Secretarial office is located at MAMC New Delhi. All its programs and activities are compiled as "Sound Hearing 2030" with the mission to eliminate avoidable hearing impairment by the year 2030 through development of sustainable ear and hearing care services. It focuses on Middle Ear Infections, Genetic Deafness, Noise Induced Hearing Loss, Presbycusis and Ear Wax. Some concepts being facilitated to be implemented in many countries through its National Programs are Healthy Ear Districts, Less Noise Cities, Affordable Hearing Aids, School Ear and Hearing Check, Helping Hands for Ear Surgery, Eye-Ear and Hearing Care.

The first president was - Dr.Bulantrisna Djelantik from Indonesia and the present is Prof.dr.Arun Agarwal from India.

The 1st Sound Hearing 2030 World Congress has been successfully organized in 2014 in New Delhi, India.

INVITATION

The Komnas PGPKT (The National Committee for Prevention & Management of Deafness & Hearing Loss), Perhati-KL (Indonesian ORL-HNS Society) and the ENT Department of Udayana Faculty of Medicine Bali, plan to organize The 2nd Sound Hearing 2030 World Congress 2019 with the theme of Sharing & Caring for Better Ear & Hearing Care, February 20th - 22nd, 2019 at The Stones Hotel Bali.

Therefore, we would like to invite you to attend the congress and experience the beauty of the famous Bali island and feel the vibrant atmosphere in a unique and exciting traditional event

The contents of the congress include of various problems, in addition to ear and hearing problems are also diseases of other ENT field that cause ear & hearing disorders including upper respiratory tract diseases such as the United Airway Diseases, including Rhinitis, Sinusitis, Otitis Media, GERD, and others.

Around 800-1000 domestic and international participants are expected to gather at this important event, involving ENT doctors, pediatricians, obstetricians, general practitioners and others. All together in a joint effort to carry out a giant action through Sharing & Caring for Better Ear & Hearing Care to achieve the goal of Sound Hearing 2030 where all members of the community have optimal hearing in 2030. Thus supporting the government's goal in creating potential, smart and independent human resources.

This Congress promises the best and most updated knowledge transfer in the field of Ear & Hearing Care, that include session of Keynote Speaker, Plenary Sessions, Lunch Symposia, Simposia, RTD, Accepted Paper, Free Paper and Young Researcher's Award. In addition, some training to improve skills in the form of Workshops, Courses, Otology Office Procedures. Pre & Post congress Seminar & Workshop for medical personnel such as general practitioners / doctors of public health (PHC), midwives, nurses and audiologists are also performed, as well as sharing & caring for teachers and parents of deaf children.

Aside from those above, enchanting social and accompanying person program are also arranged to let participants to experience the Balinese cultural, dancing and daily life.

To all sponsors, this great activity will provide a vast opportunity to promote the company's profile and product nationally and globally to important guests from different countries, ENT-Head & Neck specialists and other related specialists not only in field of ear & hearing but also in about nose, throat and other disorders, as well as audiologists, public health experts and policymakers. In this golden opportunity you can discuss directly with them to improve relationships and networking and increase profitable investment.

This is an important time for us all to come together to learn, share and exchange valuable information in the filed of Ear & Hearing Care, so save the dates in your calendar.

See you in Bali, February 20th - 22nd 2019 !!

Damayanti Soetjipto

W. Suardana
